

MAHBUBUR RAHMAN

+880 1616273501 | mrahmanjoy986@gmail.com | Mahbubur Rahman | github.com/joyboy80 |
Chattogram, Bangladesh

Education

Chittagong University of Engineering & Technology (CUET)

Bachelor of Science in Computer Science & Engineering (Level 3, Term 2)

Chattogram, Bangladesh

Expected Graduation: 2026

- Current CGPA: 3.58 / 4.00

Notre Dame College

Higher Secondary School Certificate (HSC) – Science

Dhaka, Bangladesh

GPA: 5.00 / 5.00

Noakhali Zilla School

Secondary School Certificate (SSC) – Science

Noakhali, Bangladesh

GPA: 5.00 / 5.00

Experience

Flyrank AI

Machine Learning Engineering Intern

Remote

Present

- Assisting in the design, training, and evaluation of machine learning models to enhance product workflows.
- Collaborating with cross-functional teams to integrate NLP algorithms and optimize data processing pipelines.

Technical Skills

Languages/Core: C, C++, C#, Python, JavaScript (ES6+), Bash Scripting

Machine Learning & Data Science: Machine Learning, Deep Learning, Natural Language Processing (NLP), Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn

Web Development: React.js, Node.js, Spring Boot, FastAPI, HTML5, CSS3, Bootstrap, Tailwind CSS

Databases & Cloud: Supabase, MongoDB, MySQL

Tools & Systems: Git, GitHub, LaTeX, MS Word, Linux/Unix Command Line

Projects

CUET Lost & Found Box | Vanilla JS, Node.js, Express, MongoDB

GitHub Repo

- Architected a web platform designed for campus-wide retrieval and reporting of lost/found items with item categorization.
- Implemented real-time search filtering, user authentication, and automated status updating for streamlined item tracking.

Smart Biometrics Attendance Tracker System | React.js, Spring Boot, MySQL

GitHub Repo

- Engineered a full-stack biometric attendance system integrating frontend state management with robust Spring Boot backend REST APIs.
- Built secure role-based access control dashboards for real-time tracking, record management, and automated automated reporting.

Safar: Smart Bus Tracker & Management System | React.js, Node.js, Express, Leaflet/Maps

GitHub Repo

- Developed a intelligent transit management solution featuring live route mapping, timetable updates, and transit analytics.
- Optimized client-side rendering for real-time location mapping and passenger bus schedule notifications.

EduSync | Bash Scripting, Unix Shell

GitHub Repo

- Created a lightweight CLI utility script to automate student administrative tasks, directory structures, and file operations.
- Streamlined routine shell workflows to reduce manual setup overhead across academic development environments.

Leadership & Co-Curricular Activities

IEEE Computer Society CUET Student Branch Chapter

Active General Member

CUET

Present

CUET Photographic Society (CUETPS)

Assistant Publication Secretary

CUET

Present

Bashundhara Shuvosangho (CUET Section)

Work & Planning Secretary

CUET

Present

CUET Computer Club

Active General Member
